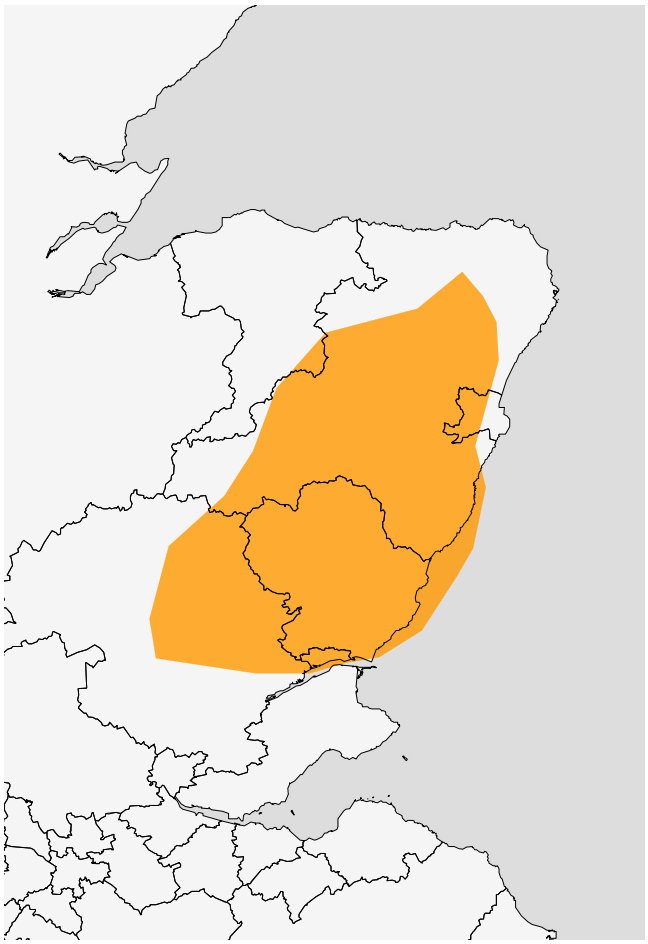
Amber warning
Rain

Between
00:00 Sat 21 Oct 2023 and
23:59 Sat 21 Oct 2023



Another period of prolonged and heavy rain is expected during Saturday leading to further flooding.

What to expect

- Dangerous driving conditions because of spray and flooded roads
- Road closures and bus and train service delays and cancellations likely
- Extensive flooding to homes and businesses is possible, which could lead to collapsed or damaged buildings or structures
- Fast flowing or deep floodwater is likely, causing danger to life
- There is a chance communities in flooded areas could be completely cut off, perhaps for several days
- Power and other essential services, such as gas, water or mobile phone service, may be lost

Further details

Another period of heavy and prolonged rainfall will affect parts of east and northeast Scotland. The heaviest rainfall is most likely to occur over upland parts of Angus, Aberdeenshire and Grampian, although even lower-lying areas will see some heavy rain. These areas overlap those most affected by the prolonged rain on Thursday and early Friday, thus likely to prolong or renew impacts. Widely 30-50 mm of rain is likely, but some upland areas may see as much as 70-100 mm of rain. Strong easterly winds are likely to accompany heavy rainfall which may exacerbate impacts.
